AZALEAS

AZALEAS AND RHODODENDRONS

From the very inception of our nursery, Azaleas and Rhododendrons have been our leading specialty. In both quantity and quality our stock is not surpassed by any other selection in the country. We have thousands of thrifty and vigorous plants in good assortments produced in our own nursery. We grow only varieties which have proven to be perfectly hardy.

Our Azalea kaempferi hybrids, a new race of our own introduction, have been hailed by many authorities as the most important addition to ornamental shrubs in many years. Wherever exhibited during the last three years, they have consistently won high awards. We are offering these new Azaleas both in mixed colors and in individual named varieties. Even the smallest sizes will make a splendid showing the first season.

HYBRID RHODODENDRONS

All Koster Rhododendrons are grafted, thus giving complete control over variety and color, which with seedlings is impossible. All plants, with the exception of the two-year-olds, are well set with flower buds. These two-year-old plants have an occasional flower bud, and are excellent material to plant up and develop into specimen plants. Some nurserymen have found them large and strong enough for immediate resale at very profitable prices. They vary in height from 10 to 18 inches, depending upon variety. All are sturdy, vigorous and bushy; shipped balled and burlapped. We offer an extraordinary selection of large sizes, and are America's largest producers of grafted Hybrid Rhododendrons.

The varieties are:

Amphion.....	Clear pink, white eye
Catawbiense album.....	White
Catawbiense grandiflorum.....	Bright violet
Everestianum.....	Rosy lilac
Mrs. C. S. Sargent.....	Deep pink, rosy red
President Lincoln.....	Lilac pink
Roseum elegans.....	Clear rose pink
Dr. H. C. Dresselhuys.....	Aniline red

BOXWOOD

There is a considerable difference in the several strains or types of box used for propagating. Ours are all grown from carefully selected, vigorous, true-to-type specimens. We grow the "True Tree Box," *Buxus sempervirens*, and the "True Dwarf Box," *Buxus suffruticosa*. We call particular attention to our trimmed and shapely pyramids and "balls". We now offer a splendid stock.
